

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

In the estimate of damages to the land, the jurors shall include the value of the building or buildings, (if the property of the owner of such land,) as estimated by them as aforesaid, less the proceeds of the sale thereof; or if taken by the owner at the value to remove, in such case they shall only include the difference between such value and the whole estimate [estimated] value of such building or buildings.

If the lands or buildings belong to different persons, or if the land be subject to lease, judgment or mortgage, or if there be any estate in it less than an estate in fee, the injury done to such persons or interests respectively, may be awarded to them by the jurors, less the benefits resulting to them respectively from the proposed improvements.

All lands shall be subject to taxes that may have been omitted, in whose-soever hands they may have come. Should the tax or assessment upon any parcel of land be set aside or declared void by reason of any defect or informality in the assessing, levying, selling or conveying the same, but not effecting [affecting] the equity and justice of the tax itself, the common council shall cause the tax or assessment so set aside or declared void, to be relieved [releived] in such manner as they shall by ordinance direct: *provided*, that if the defect was in the assessment, the same shall be again assessed at such time as the common council shall direct; and the said tax or assessment so reassessed or relieved, shall be and continue a lien upon said lot or tract, and shall be collected as other taxes and assessments are collected under this act.

Priority of redemption.

SECTION 21. In all cases where there has been a sale heretofore by the county treasurer and by the city treasurer, of any piece or parcel of land for taxes, in

the same year, the purchaser of such piece or parcel who may be first in point of time, may redeem the same from the subsequent purchaser, and in case he shall not redeem, the right of the last purchaser shall be held paramount in case of the execution of any tax deed therefor. If the first purchaser in point of time shall so redeem, it shall be the duty of the proper officer to make an entry in the sale book of the character in which such person may redeem, and the person so redeeming shall be substituted to all rights of the holder of the certificate so redeemed as aforesaid.
